John Atkin
Internet Marketing Consultant
Sarasota, FL 34231

Dear John:

I am so pleased with the website you created for me at www.asianmedical.net.

The visual format and layout is exactly what I need to explain my business model to prospective customers. It acts as my company brochure, and I am pleased to direct people to see it.

But more importantly, I am enormously happy with the Search Engine Optimization (SEO) you have performed on my sight. With just a few key words in the search box of Google or Bing, companies from all over the world can find me AT THE TOP of the first page of the search results. I test this often and your results continue to amaze and impress me.

I can strongly recommend your full services to anyone who needs a well designed website that others need to find quickly on the internet.

Yours Sincerely,

Michael J. O'Malley
President and CEO
