John Atkin

Dear John,

Just a quick note to thank you for the job you did with my web site, not a day goes by that I do not get a few e-mails or phone calls for information. This first 6 months was the slow season, I can not guess how busy I will get during the busy time of year here in Sarasota.

All the years I spent big dollars every year for Yellow Page ads that got me "zero" business. Now for a fraction of that cost you have me working more than I want to.

I don't know what you did, but everything you promised has happened.

I will be in touch later this month to "tweek" a few changes before the busy time starts.

All the best,

Capt. Joe Bonaro
